

## Press release

### **ECOPRENEUR and SKion Water strengthen their offer in the Green Hydrogen market by acquiring VIGAflow**

Las Condes (Chile) / Bad Homburg v.d.H. (Germany)

January 17, 2024

SKion Water, through its subsidiary Ecopreneur, has completed the acquisition of the Chilean company VIGAflow. With this acquisition, SKion Water will expand its water treatment offer in Latin America, ensuring the local supply of water production systems necessary for the production of Green Hydrogen and Lithium processing among other industries, such as Mining, Food, Desalination and Drinking Water production.

Ecopreneur and VIGAflow both have a track record of more than 20 years in the Latin American market in the area of clean water treatment, wastewater treatment and water reuse.

Dr. Reinhard Hübner, CEO of SKion Water: "We are very happy that the VIGAflow team will join SKion Water. The process water and membrane system capability of VIGAflow are a great addition to the strong wastewater treatment capabilities that we have in Latin America with Ecopreneur and Paques. Also, via VIGAflow we will be able to support our customers in the hydrogen sector and customers looking for industrial re-use solutions in the region."

#### **About Ecopreneur**

[www.ecopreneur.cl](http://www.ecopreneur.cl)

Ecopreneur is a Chilean company, with 28 years of history, which currently operates in Chile, Peru and Colombia and has developed more than 550 water treatment projects in markets such as Mining, Energy, Food and Beverage, but also utility customers with the focus being on large and medium scale industrial effluent treatment solutions.

#### **About VIGAflow**

[www.vigaflow.com](http://www.vigaflow.com)

VIGAflow, with a team of about 100 people, is a specialist in the design, manufacture and service of water purification, desalination and reuse plants, with more than 600 projects
